CORE SKILLS

- Collaboration
- Critical Thinking
- Adaptability
- Innovative Thinker
- Leadership

TECHNICAL SKILLS

- Risk management
- Governance
- DevSecOps
- Application Security
- Coding & scripting

WORK EXPERIENCE

OWNBACKUP
2021-2024, Product Security Team Leader

I led a skilled security team and collaborated cross-functionally to embed security best practices throughout the product lifecycle. Key achievements include implementing a comprehensive vulnerability management process, establishing a Secure SDLC framework, advancing DevSecOps practices, integrating SSPM and ASPM security tools, and building an effective IR program.

ORBIA
2020-2021, CISO

Hold the CISO role in three subsidiaries of ORBIA: Koura, Alphagary, and Vestolit. I led the organization's information security strategy, ensuring compliance and mitigating cyber risks. I oversaw security operations, incident response, and risk management while aligning security initiatives with business goals.

BDO CYBERSECURITY CENTER
2017-2020, Senior Security Consultant

As Cybersecurity Architect, I initiated the adoption of leading Cloud Security Frameworks (e.g., NIST, CIS) across a range of customer services, including risk assessments, consulting, and CISO-as-a-Service. This facilitated the development of secure cloud architectures, the implementation of DevSecOps practices, and the proactive mitigation of security risks for our clients

SAGE LTD.
2012-2017, IT support manager

Led a support team that managed infrastructure and security operations across cloud and traditional environments for financial and fintech companies.
